Respected Concerned Authority,

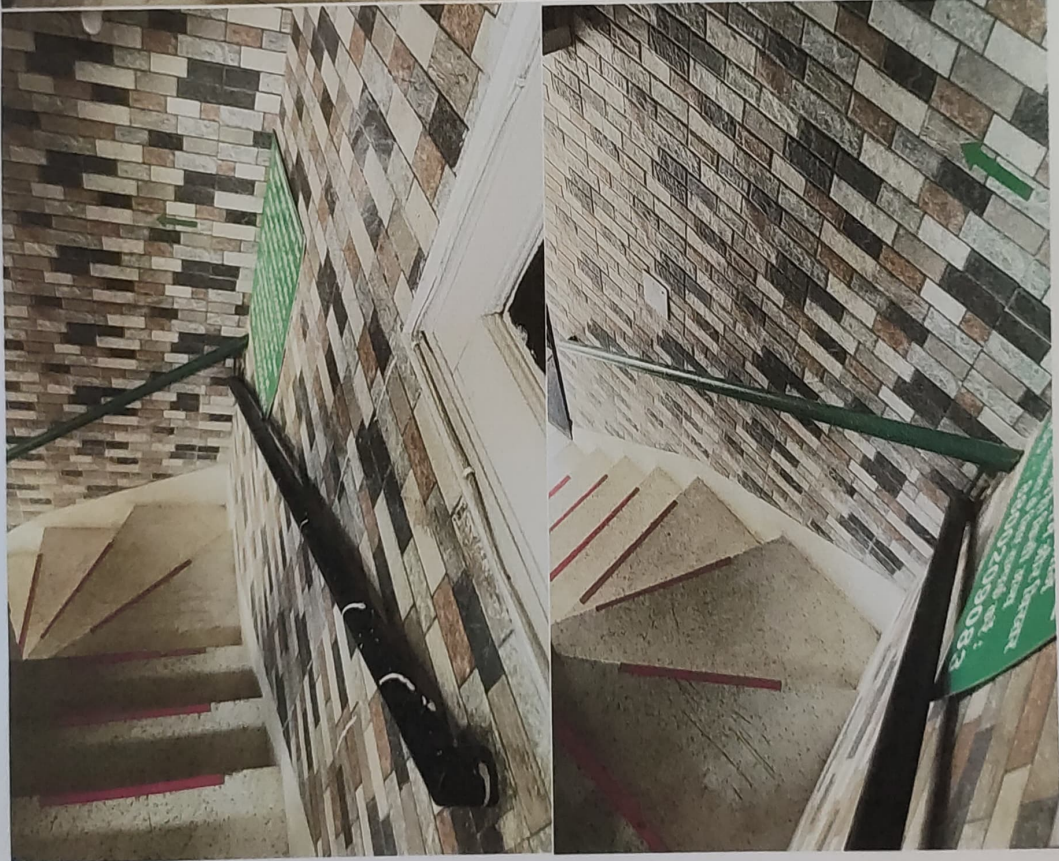

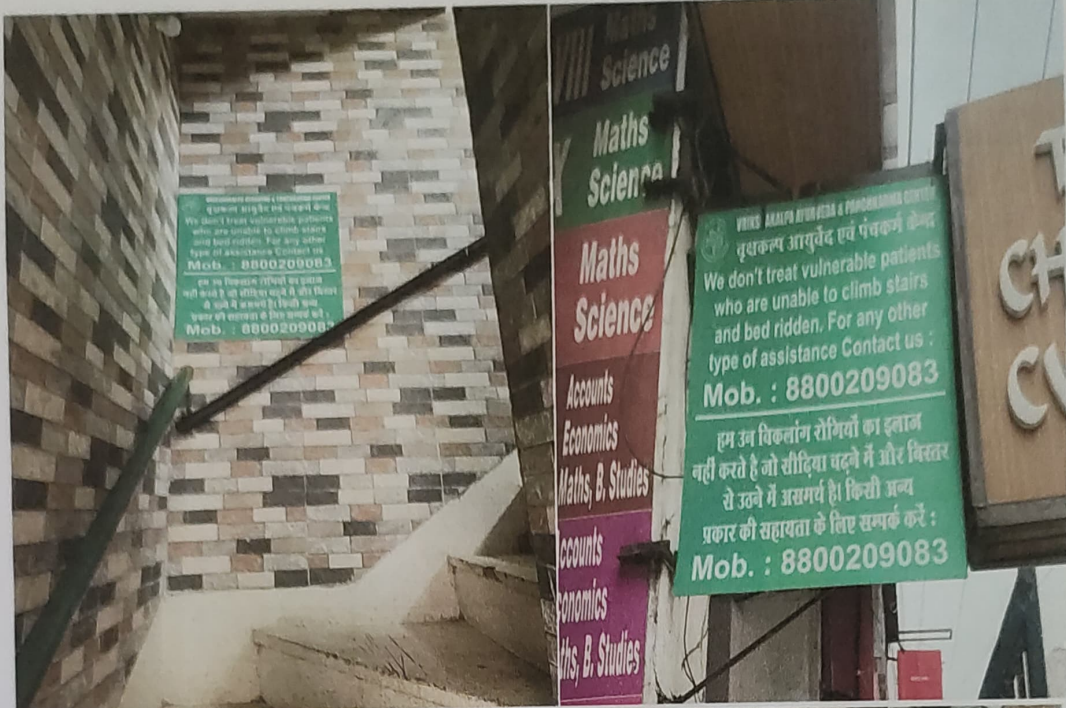

We do respect vulnerable group of patients to take services of Ayurveda and Panchakarma for their preventive & rejuvenation of health as well as the treatment of their disease. We do want to give them best treatment for their illness. As during the inspection, it is highlighted that our center is on first floor which may make inconvenient to climb vulnerable patient on first floor. We state that we have taken initiatives to respect that group of patients so we had mentioned specially that the patients who are not able to climb stairs or not willing to climb stairs & who are bed ridden, we don't do treatment for such patients as we do respect their health concerns. Even as mentioned by the assessor we had installed railings for their safety. For reference, I am attaching the pictures of board and railings
