months, we found no adverse drug reaction and
sentinel event.

we make data to find sentinel event and adverse
drug reaction to patients.

OPD Patients total $\rightarrow (1/05/22 - 30/06/22) = 74$

IPD Patients total $\rightarrow (1/05/22 - 30/06/22) = 36$

Day care Patients total $\rightarrow (1/05/22 - 30/06/22) = \text{No day care pati}$

Name of consultant from 1/05/22 to 30/06/22
= Dr. Shwetambari

we checked all the patient's file that what medications
were given to them and we also called for follow-up
to every patient from OPD, IPD and day care that if

there is any side-effect or any health issue they are suffering from the medications prescribed to them. we also ask some near by patients to come and visit for physical examination also if there is any reactions after taking medications prescribed by us. we found there is no any adverse drug reaction and Sentinel event found as told by our patients. All Patients are good and were giving good / positive response.

As from observation and call, we found that there is no adverse drug reaction and Sentinel event found in the month of July and August.

Positively. Patients who come to our hospital, we examine them and we found that there is not any side-effects or adverse drug reaction on their body. We also found that patients are happily taking the treatment as they are getting better from the medications and all over all treatment provided by us.

In the month of August and September and October, there is no sentinel events and adverse drug reaction.

Conclusion - We checked data of last 6 months from May 2022 to Oct 2022 and we found that there is no sentinel events and adverse drug reactions found in last 6 months.
