NC 13/ HIC 1 C: Even though the multidisciplinary committee is existing for Infection control practices but the objectives, roles and responsibilities of the members, and CAPA of the meeting decisions needs to documented and implemented

The infection Control committee has an effective infection control program and is documented & aim to reduce the infection risk to patients, visitors and health care providers. Hospital measures and take action to prevent or reduce the risk and for this make a committee as HIC, which runs a program includes an action plan to control out breaks of infection. Below is the audit report along with CAPA
