### UNDERTAKING

#### **( Non compliance observation 1 – MoU with higher center is inevident)**

During the assessment of SKK Ayurveda for NABH Accreditation, MoU with higher centre for referral of Patients in emergency condition was found inevident.

Although we maintain a referral policy to higher centres in case of any medical emergency in our clinic but we don't have a MoU with any of the them.

We contacted some multispecialty hospitals in our area but they refused by saying that no such policy is available with them for MoU with clinics. Although they are ready to accept and handle any emergency patient if send to their facility.

We already have MoU with ambulance services, also we have many government and privates hospitals within 1-2 Km diameter of our clinic, we are assured to receive good medical attention if needed.

Thanks and Regards,
