Fully Computerised Lab with Digital X-Ray, ECG, CT Scan, MRI & Ultrasound

Laboratory Test Report

Reg No : 202103065060068 / OPD
Name : Ms. RIHANA
Referred Dr : SANDHYASHI HOSPITAL

Sex / Age : Female / 19Y
Reg Date : 11/03/2021 01:10 PM
Report Date : 13/03/2021 10:23 AM

Serial No : 7891

SEROLOGY REPORT

Test Name	Result	Unit	Reference Range
Hepatitis B surface antigen (AuAg) Rapid			
Result	NON REACTIVE		
Method	Hepacard test.Sensitivity : 0.5ng/ml This is a screening test. All positive results to be confirmed by ELISA test.		

Haemoglobin

Haemoglobin	13.3	gm/dl	12.5 - 16.5
Haemoglobin Percent	91.72	%	14.5 - 100

HIV I And HIV II

HIV-I	Non Reactive
HIV-II	Non Reactive
Method	Rapid Test

Interpretation :

Non Reactive result implies that antibodies to HIV 1 / 2 have not been detected in the sample.This means the patient has either not been exposed to HIV 1 / 2 infection or the sample has been tested during the "window phase" i.e. before the development of detectable levels of antibodies. Hence a Non Reactive result does not exclude the possibility of exposure or infection with HIV 1 / 2.

Recommendations

1. Results to be clinically correlated.
2. Rarely false negativity/positivity may occur.
3. Post test counseling available between 9.00 am to 5:00 pm at LPL laboratories.

CLINICAL PATHOLOGY			
Test Name	Result	Unit	Reference Range
STOOL EXAMINATION			
Sample Type	STOOL		
Physical Examination			
Colour	Brown		
Mucus	Absent		
Parasites	Absent		
Consistency	Semi solid		
Chemical Examination			
pH	Alkaline		
Occult blood	Negative		
Reducing Substances	Negative		
Microscopic Examination			
Pus cells	0-2	/hpf	
RBCs	0-1	/hpf	
Cyst	Absent	/hpf	
Trophozoites	Absent		
Macrophages	Absent		
Ova	Absent		
Starch	Absent		
Other Findings	NIL
